Experience

WATERTRON, PHP Developer *London, UK (Sept 2016 - Oct 2017)*

Lead PHP Developer, in charge of developing Backend and Frontend CMS, Websites and eCommerce. User Interface Designer and Coder, up-to-date User Interface Trends and Responsive Apps. I was the only **CodeIgniter** developer and built a Customer Relationship Management system.

OPTICOMMERCE, Graphic Designer *London, UK (May 2016 - Dec 2016)*

As a lead designer, my role involved delegating and monitoring tasks carried out by the team. I managed a team of five developers and another graphic designer. I was responsible for marketing campaign conversions as my designs were heavily relied upon.

SELECT GB, PHP Programmer (Front & Back end) *London, UK (Sept 2015 - Jan 2016)*

I programmed and enhanced shopping carts within a team of programmers (Using GIT). Focusing on Front-End and Back-End. I liaised with graphic designers to update online content with PHP, JavaScript, CSS3, Sass & CodeIgniter PHP framework. I worked with the warehouse team to ensure orders from the online store were accurate.

DESIGNS ILLUSTRATED, Visualisation Artist *London, UK (July 2014 - Aug 2015)*

I managed projects from conception to completion, liaising with clients through every detail. I was the visualisation artist representing client build projects. I made life-like 3D images to 1 drawing construction details.

JC ARCHITECTURE, Architectural Assistant *Taipei, Taiwan (Sept 2013 - Dec 2013)*

I shadowed several architects in developing large projects, including a 30 storey hotel in Beijing. My illustrations were presented in the Chinese Society of Interior Designers awards. I took site visits with architects and visited plantation nurseries to specify landscape plants.

GRID.TO, Web Developer *London, UK (March 2010 - March 2012)*

I programmed the server-side API and designed the client-side user interface from scratch. I used MongoDB, Ruby, Sinatra, jQuery, HTML, CSS and GIT to develop the site. I integrated social media and helped professional architects and students market their work.
